

DONT LEAVE ME HERE!

I MAY NOT BE HERE WHEN YOU GET BACK!

The temperature inside a car can double in a matter of minutes.

25 degrees can turn into 50 degrees in a matter of minutes

A dog panting inside a car will raise the temperature quicker.

Leaving the window down or parking in the shade does **NOT** stop the temperature rising in the car.

Leaving your dog in the car can result in serious brain injuries or death

If you can't take your dog into the shopping centre, leave your dog at home!

We are a group of like-minded people, mostly from rescue backgrounds, who were upset at the lack of support, power, status and recognition of the hard work that animal rescuers, foster carers and volunteers do. We put our heads together and came up with the idea of creating an organisation, just for them, so NARGA was born.
